The goal of the PE program is to teach long term health benefits that students can practice when they are outside of the school environment. The children are encouraged to engage in physical activities in different settings (indoor/outdoor/individual and team sports). The children are encouraged to learn about their bodies, including proper hygiene practices and the positive effects of physical activity. The health program teaches the students the proper health habits and functions of their body so that they can keep healthy and active.

Students are expected to come to class ready to learn and participate in all activities. Both Health and Physical Education classes are linked to one another so the children can make the association that being active and health conscious is necessary in leading a healthy lifestyle.

Important information:

Physical Education classes are given twice a week for a duration of 1 hour per class.

Children in Cycle 1 (Grades 1 and 2) are expected to come to school in their blue P.E. t-shirt and navy bottom (shorts or jogging pants).

Children in Cycle 2 and 3 (Grades 3,4,5 and 6) are expected to bring their blue P.E. t-shirt to change into before class. Proper footwear is required for this class (running shoes).

N.B. unforeseen circumstances may require the subjects and marking breakdown contained in the standards and procedures to change. In this eventuality, you will be notified, the document will be amended and re-posted. It should be further noted the spirit of any such amendment will only be made if required and if it will benefit the students.
